

We've Officially Launched ALIV Connect!

Last week, we proudly announced our new initiative — ALIV Connect. We repeatedly say that community engagement is our guiding light, and this initiative is a testament to that.

ALIV Connect creates an equitable, inclusive and accessible Bahamas by using tech to develop tangible opportunities for underrepresented communities, namely the disabled community. We hope to increase awareness and sensitivity toward the disabled community, develop full retail accessibility and create job opportunities.

Aliv Connect Aims To Assist The Disabled Community

We put our customers first, and as a lifestyle partner it is our goal to cater to the whole person. We all deserve an equitable, inclusive and accessible Bahamas— ALIV Connect brings us one step closer to that. For five years we used technology to keep our community connected, led the digital revolution and closed the technology gap to ensure that our customers are connected through all circumstances. Keep an eye out for our customer volunteer opportunities through ALIV Connect on social media— there will also opportunities to get cash back in your [Rewards](#) wallet when you participate!
